

**"Everyone was very impressed,
just thrilled by the entire event."**

Jean Vivrette

Exhibit Is Centerpiece of 75th Anniversary Event

When St. Joseph Hospital wanted to commemorate their 75th anniversary, they called event planning firm Pacific Partners to create the perfect event. When Pacific Partners President Jean Vivrette wanted to make a 30' by 40' exhibit the centerpiece of that event, she called Skyline.

"St. Joseph Hospital wanted to present their past, present, and future, in order to honor their heritage and major donors, celebrate the groundbreaking of a new hospital wing, and promote the sophistication of their medical technology," explained Vivrette.

The exhibit was designed to be in multiple configurations and sizes to be used in a variety of events in different locations around the county throughout the year.

"The exhibit was received extremely well by hospital management, the press, city dignitaries, doctors, employees and the community. Everyone was very impressed, just thrilled by the entire event," said Vivrette.
